- [x] Name token present
- [x] Date-of-birth band present
- [x] Address token present
- [x] Phone token present
- [x] Email token present
- [ ] Document metadata complete

PROCESSING NOTES

Identifier values are tokenized before storage in operating systems.

No raw government identifier is included in this packet.

Status values are produced by deterministic identity verification controls.

Any unresolved identity evidence routes to additional review before final action.
